

DOCTOR PRESCRIBES VINOL
For Schoolboy to Create Strength After Sickness.

Vineland, N. J.—"I am a schoolboy, 17 years of age, and typhoid fever left me weak and debilitated, so I had to stay out of school three months—my doctor prescribed Vinol. It has built up my strength and now I am feeling fine."—S. E. Bunce.

The reason Vinol was so successful in this boy's case is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, run-down system, make rich, red blood and create strength.

Aircraft Probe Submits Secret Report to Secretary of War Baker.

NO EVIDENCE OF GRAFT

Military Affairs Committee Expects War Department to Remedy Defects.

Washington, Aug. 23.—(I. N. S.)—A secret report on the aircraft situation, containing many disclosures not touched upon in the published report of the senate investigating committee, was laid before Secretary of War Baker today by Senator Chamberlain, chairman of the senate military affairs committee.

The report is designed to aid Secretary Baker in building a success upon the ruins of the old aircraft program. It will not be made public during the continuance of the war. It contains much information that would be of very practical value to the German general staff. Many of its statements would give decided comfort to the German people, according to senators who aided in its preparation.

The report is understood to contain no evidence of graft or profiteering, although the committee came upon many trails that might have produced such evidence. The responsibility of certain officers for various "mistakes and blunders" is pointed out, however so that the secretary may have the data upon which to base any reorganization he may deem necessary.

Bills to carry out such recommendations of the aircraft investigation committee as can be enforced by congressional action were in preparation in both houses today. The military affairs committee of the house and senate have before them several bills looking to the establishment of a department of aeronautics with a cabinet member at its head. One of these measures will be reported out next week as a means of saving time.

The senate military affairs committee looks to the war department itself to remedy many of the defects pointed out in the report of its subcommittee, without formal action by congress.

RUSSIANS IN THICK

Paris.—(Copyright, N. Y. World.)—Volunteers from the old Russian division in France played a glorious part in the battle at Villers-Bretonneux recently, eliciting praise from even such hardened veterans as the zouaves. The Russians were called upon to carry out an extremely difficult operation, during which the Russian legion commander was killed. At one period of their attack the enemy's fire became terrific, shells bursting in the Russians' ranks and bullets falling thick around them.

CAR TRACED ALONG LINE OF CABARETS

Police Searching for "Odd Woman," Who Holds Key to Double Murder.

Rahway, N. J., Aug. 23.—The death car in which pretty 18-year-old Edith Janny and Arthur L. Kupper were slain early yesterday was traced back along a line of cabarets and resorts today in an effort to apprehend the "odd woman," who is now thought by the authorities to hold the solution of the double murder.

The police are convinced that the motive was jealousy. At least three arrests were expected during the day.

The investigators are trying to find how Miss Janny and Kupper spent the two hours prior to the finding of their bodies along the road leading into Rahway. The police declare the couple were followed all evening. The autopsy revealed that both were shot in the back. A vanity bag and a powder puff were found in the murder car, which was discovered several miles from Rahway in a semi-wrecked condition. Acting on the contention that jealousy was the motive for the crime and that Miss Janny and Kupper were followed all evening, the murders were re-enacted last night by authorities and newspaper men.

NEWSPAPERS QUARREL OVER ITALY'S POLICIES

Rome, Thursday, Aug. 22.—The newspapers are having a rather bitter controversy over Italy's foreign policy. The Corriere della Sera of Milan leads a portion of the press in attacking Baron Sonnino, the foreign minister, and asserts that he has not been sufficiently liberal and open minded in recognizing the claims of the Jugo-Slavs on the east Adriatic.

The opposing group is led by the Giornale d'Italia of Rome. It asserts that Baron Sonnino must adhere to the agreement made in London in September, 1914, with the understanding that once Austria is beaten Italy will be generous in dealing with her eastern neighbors.

GERMAN GUNS TEACH PHOSPHOROUS LESSON

London.—(N. E. A.)—It was believed in the British munitions factories that sulphur and phosphorus must be removed from all steel used in making munitions.
